

# HUMAN - ENVIRONMENT CONNECTION : THE BRIEF REFLECTION

**Wahyu Rahardjo**  
*Faculty of Psychology Gunadarma University*

## ***ABSTRACT***

*Human will not release their dependence from the nature until now. On the other side, the nature itself also has dependency to human even though is not as much as human has. More or less, the human environmental personality effects the way human interact to the nature. Furthermore, human also develop the life that might be has negative consequences to the nature. At this point, controlling the nature destoration should be done in order not to ruin the nature balance.*

***Key words:*** *human-environmental interaction, environmental personality*
